

The Ballroom

I am very lucky because my client is a well-known person in Indonesia, Mrs. Lili Tanoë Soedibjo. She has a very high taste of art, really understands how to apply color. Wow, I really learned a lot Concepts and ideas for the carpet design that she wants for the ballroom Royal Glass House is combines abstract art and motifs. As you can imagine, the ballroom is 47 meters long and 25 meters wide, WOW The motif must symbolize luxury and elegance. How to make gold look attractive when combined with black and gray.

Production

The Process

The production process takes 37 days until it is completely finished and ready to ship. starting with checking the production data that I sent to the factory, dyeing the thread according to the selected thread color. The thread used uses real wool then prepare the canvas and be ready to go!
